

## PatientSecure® - Award-winning Biometric Patient Identification System

Biometric identification technology can revolutionize the way your hospital ensures patient safety. Join PatientSecure® /HT Systems, a premier partner of Fujitsu, at the HIMSS 2012 Annual Conference to learn how 100+ hospitals are ensuring the right care is provided to the right patient through the usage of this revolutionary solution.

---

Visit us in Fujitsu's Booth #4834 PatientSecure® to learn how BayCare Health System has enrolled nearly a million patients into the system, gaining benefits including:

---

### Improved Patient Safety

- Accurate and instant identification of patient at registration
- Protection against medical identity theft and insurance fraud
- Reduction in duplicate medical records and overlays

### Optimized Operational Performance

- Improved patient wait times due to fast and easy biometric identification
  - Gained substantial ROI as a result of improved efficiencies
-
