
McKesson to Demonstrate PatientSecure[®] HIMSS12 at booth #2545

Biometric identification technology can revolutionize the way your hospital approaches patient safety. Join McKesson at the HIMSS 2012 Annual Conference to learn how McKesson can help you provide the *Right Care to the Right Patient* through the use of this revolutionary solution.

Visit us in McKesson's Booth #2545 to learn how Carolinas HealthCare System has enrolled nearly two million patients into the system, gaining benefits including:

Improved Patient Identification

- Accurate and instant identification of patient at registration
- Protection against medical identity theft and insurance fraud
- Reduction in duplicate medical records and overlays

Optimized Operational Performance

- Improved patient wait times due to fast and easy biometric identification
- Gained substantial ROI as a result of improved efficiencies
